

Igniting the minds of little learners since 2005

MISSION STATEMENT

We endeavour to provide a warm and welcoming environment for all children where they will be treated equally with compassion and respect. To celebrate the uniqueness of each child and ensure that they are able to fully reach their potential by providing challenging, yet achievable activities to enable children to reach their goals. To work with parents and other carers to ensure we continually meet the individual needs of each child by planning 'next-steps'. To value the contributions of children and parents in making improvements to our setting and morally educate children within our ethos of 'being kind, sharing and caring about each other at all times and apologising when we fall short'
